

Assessing and Improving Your University's Research Administration Procedures and Internal Controls

National Sponsored Program Administrators
Alliance of HBCUs
Annual Technical Assistance Workshop
Charlotte, North Carolina
June 5, 2025 | 10-11 am

Gillian Silver, MPH, CPH, CRA
Director, Office of Research Administration
Morgan State University
gillian.silver@morgan.edu

Shamon Shine-Lee, BS
Budget Officer, Office of Research Administration
Morgan State University
shamon.shine-lee@morgan.edu

Learning Objectives

By the end of this session/workshop, participants will be able to:

1. Describe the basis for internal controls and their importance for compliance within research administration.
2. Demonstrate how to assess procedures and internal controls.
3. Share MSU's existing procedures that include/address internal controls.
4. Review/assess session participants' universities' existing procedures and internal controls.

Internal Controls: What Are They?

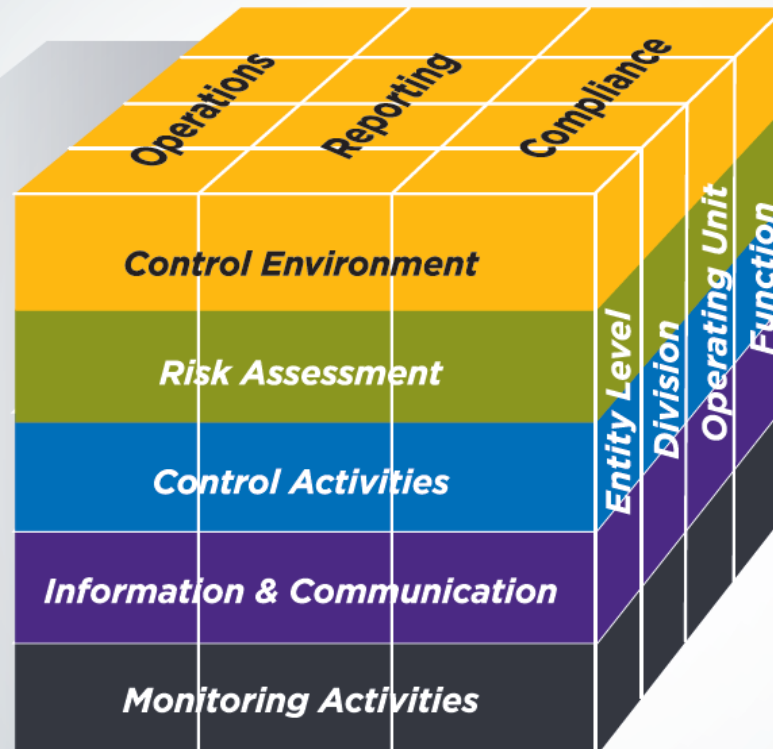

Internal controls are a process implemented by a non-federal entity that is designed to provide reasonable assurance regarding the achievement of objectives in the following categories:

- (a) effectiveness and efficiency of operations
- (b) reliability of reporting for internal and external use
- (c) compliance with applicable laws and regulations

- 29 CFR § 99.105

COSO Internal Control — Integrated Framework Principles

©2013, Committee of Sponsoring Organizations of the Treadway Commission (COSO). Used by permission.

COSO's 17 principles of internal control – summarized

Control environment	Risk assessment	Control activities	Information and communication	Monitoring activities
<div>1</div> Demonstrates commitment to integrity and ethical values	<div>6</div> Specifies suitable objectives	<div>10</div> Selects and develops control activities	<div>13</div> Uses relevant information	<div>16</div> Conducts ongoing and/or separate evaluations
<div>2</div> Exercises oversight responsibilities	<div>7</div> Identifies and analyzes risk	<div>11</div> Selects and develops general controls over technology	<div>14</div> Communicates internally	<div>17</div> Evaluates and communicates deficiencies
<div>3</div> Establishes structure, authority, and responsibility	<div>8</div> Assesses fraud risk	<div>12</div> Deploys through policies and procedures	<div>15</div> Communicates externally	
<div>4</div> Demonstrates commitment to competence	<div>9</div> Identifies and analyzes significant change			
<div>5</div> Enforces accountability

Underlying Principles & Regulations

Uniform Guidance:
federal code of
regulations as they apply
to research
administration
(2 CFR 200)

CAS: Cost accounting
standards

FAR: Federal acquisition
requirements

GAAP: Generally
accepted accounting
principles

ALLOWABILITY TESTS

Conformance
(not prohibited)

Consistent

GOALS

Reasonable
& necessary

Allocable

Components of Internal Financial Control

- Segregation of Duties
 - Authorization and Approval
 - Reconciliation and Review
 - Physical Controls
 - Documentation and Recordkeeping
- 

Segregation of Duties

Record keeping

Authorization

Custody

Reconciliation

Authorization and Approval

- ▶ What is authorization?
 - ▶ Define activities an employee can perform
 - ▶ Define transaction parameters
 - ▶ Define transactions that require approval
- ▶ What is approval?
 - ▶ Verification and validation
 - ▶ Review of supporting documentation
 - ▶ Evidence of approval

Reconciliation and Review

- A high level of inspection is expected for every cost allocated to every award.
 - Research administrators need to be proactive in monitoring spending by frequently reviewing cost allocation at the department and central offices.
 - Routine self-auditing catches errors before they have negative consequences.
-

Physical Controls

Document & Record Keeping

Retention (and then Disposal):

- Paper files
- Excel files
- Computer folders (local or cloud)
- Email
- DocuSign (or similar)
- ERP/Financial System
- Grant Management System

Institutional Policies & Procedures

Your institution must
have documented
spending policies and
procedures

Spending must be done
in a consistent manner,
whether the spending is
using institutional,
grant, or other funds

Challenges for Internal Controls

Lack of documentation of procedures

Morgan State University

Principal Investigator Handbook

Part 3: Grant-Related Processes

REVISED: FEBRUARY 2025

OFFICE OF RESEARCH ADMINISTRATION | morgan.edu/ora
DIVISION OF RESEARCH AND ECONOMIC DEVELOPMENT | MORGAN STATE UNIVERSITY

Table of Contents

PRINCIPLES	4
PRE-AWARD	5
Submitting a Grant Application.....	5
Limited Submissions.....	8
Subawards (or Subcontracts) from Other Institutions to MSU	10
Transferring Grants from Other Institutions to MSU.....	13
Intergovernmental Personnel Act (IPA) Assignments.....	16
Pre-Award Spending / Advance Account Creation Prior to Receipt of the Award Document	18
POST-AWARD	21
Setting Up an Awarded Grant	21
Post-Award Check List.....	23
Providing Banner Access Using Workflow	24
Obtaining or Modifying a Purchase Card	25
Hiring Full-Time Employees	26
Hiring Contractual Employees.....	28
Contractual or Consultant Services.....	30
Supplies – Total cost < \$5,000 (using Purchase Card).....	33
Supplies – Total cost ≥ \$5,000 (Using Requisition)	35
Equipment (≥ \$5,000 unit cost and a lifetime use of at least 1 year)	38
Catering Services	41
Stipends for Morgan State University Students	43
Honoraria / Stipends for High-School Students	45
Tuition Contributions	47
Travel (Out of State/Out of Country) Approval Process	49
Reimbursement Form (Non-Travel Related Expenses).....	51
Research Working Funds (Cash/Other Incentives to Study Participants).....	53
Subawards from Morgan to Other Institutions	56
Special Compensation Form (Extra Compensation)	59
DEVIATIONS FROM THE ORIGINAL PLAN	61
Change of Principal Investigator or Key Personnel.....	61
Change in Time and Effort of Key Personnel	62

Challenges for Internal Controls

Lack of documentation of procedures

Lack of training for staff doing approvals

Training

Office of Research Administration

e-Training

The Office of Research Administration (ORA) is pleased to provide a gamut of training modules touching on all aspects of administrative functions here at Morgan State University. Check back regularly for future training opportunities on functions such as purchasing card usage, budget queries, contract entry for employees, and much more!

Post Award Quick Guide	+
P-Card Trainings	+
Understanding Grant Funds in Banner	+
Contractual Salaries	+
Contractual Services	+
Time and Effort Reporting Training	+

Challenges for Internal Controls

Lack of documentation of procedures

Lack of training for staff doing approvals

PI rebudgeting, so not able to confirm spending with original budget justification

Variability of different grants' periods of performance, therefore, potential for excessive/inappropriate end-of-award spending

Checklist for Assessing Internal Controls

Identify issue or risk being addressed and the relevant internal control process

- ☐ Is the process documented?
- ☐ Is there training on the process?
- ☐ Is the process followed?
- ☐ How long does the process take?
- ☐ Have any PIs or grant staff raised concerns?
- ☐ Have any research administration staff raised concern?
- ☐ What are your proposed changes?

Examples of Processes That Work

Purchasing equipment

Tuition Contributions

Examples of Processes That Can Be Improved

Personnel Contracts: People initiating and approving their own contracts; decreased queue from 8 or 9 signatures to 4 or 5 signatures

Travel Authorizations: Too many signatures required

Stipends: Realized that we needed to include the graduate school

Conclusions

- Internal controls are necessary and required
- Documentation of procedures is also necessary and required
- Training for all relevant parties (principal investigators, all levels of staff) is critical
- Electronic/automated systems make the process much easier
- Reviewing internal control policies can improve your efficiency

Thank You!
